

# Starblast™ Ultra

## Blasting Abrasive

### Product Information

Starblast™ Ultra abrasive is a uniquely formulated addition to the Starblast™ family of abrasive products. Mined from Chemours mineral deposits in Northeast, Florida, the naturally occurring rounded to subangular mineral sands are washed to ensure freedom from dirt, dust, and ultrafines.

#### Applications

Starblast™ Ultra is designed for those applications that require a more aggressive abrasive, such as steel maintenance, heavy rust, and paint removal.

While stronger than Chemours standard Starblast™ and Starblast™ XL, Starblast™ Ultra continues to offer the same product advantages, such as:

- greater blasting visibility due to considerably less dust generation
- lower labor costs through faster, more efficient cleaning
- less material costs due to reusability
- guaranteed to contain <5% free silica, typically <3%
- rounded to subangular grains result in less abrasive embedment
- electrically nonconductive

**Table 1. Physical and Mineral Properties of Starblast™ Ultra Abrasive**

Typical Screen Analysis		
U.S. Sieve No.*	Sieve Opening, μm	Retained on Sieve, %
20	840	<1
30	590	1
40	420	14
50	300	19
70	212	24
100	150	30
140	106	11
200	75	<3
Grit #30/80		

\*U.S. Sieve Series according to ASTM E-11-70.

Physical Properties	
	Range
Bulk Density (loose)	134 lb/ft <sup>3</sup> (2146 kg/m <sup>3</sup> )
Specific Gravity	3.7
Hardness (Mohs)	7.0

Mineral Composition	
	Typical, %*
Staurolite Minerals (FeAl <sub>5</sub> Si <sub>2</sub> O <sub>12</sub> OH)	85
Titanium Minerals (Fe <sub>2</sub> Ti <sub>2</sub> O <sub>7</sub> )	7
Kyanite (Al <sub>2</sub> SiO <sub>5</sub> )	2
Zircon (ZrSiO <sub>4</sub> )	3
Quartz (Free Silica)	<3

\* This column gives typical analyses based on historical production performance. Chemours does not express or imply any warranty guaranteeing that future production will demonstrate or continue to possess these typical properties.

## Personal Safety

For safety information, please visit the product Safety Data Sheet (SDS).

Heat, electrostatic charge, or sparks can potentially be created when using this product in abrasive blasting applications. Do not perform abrasive blasting using this product in the presence of flammable or explosive vapors.

## Packaging

Starblast™ Ultra abrasives are available in semi-bulk (2-ton) bags, bulk hopper rail cars, and trucks. Department of Transportation (DOT) Hazard Classification\*: NOT REGULATED.

\*Due to changing governmental regulations, such as those in the Department of Transportation, Department of Labor, U.S. Environmental Protection Agency, and the Food and Drug Administration, references herein to governmental requirements may be superseded. Each user should consult and follow the current governmental regulations, such as: Hazards Classifications, Labeling, Food Use Clearances, Worker Exposure Limitations, and Waste Disposal Procedures for the products described in this literature.
